Fun-ish game.. Put this game free this is the badest game i've played. Just try it!, It's so much fun than you see.

In my opinion, The level difficult is hard as it should be, so that make the game so fun.

The trick of this kind of game is that you must try to play the same stage to get you the professional skill!.

For now, I GOT THIS GAME 100% ACHIEVEMENT. LOL

FunGameOverall (8.5/10). At first glance Porradaria Upgrade looks very basic with unpolished graphics but once you get stuck into it, it's a very enjoyable little game. It has elements and gameplay of the old school games such as shinobi, legend of Kage (NES) and Super Mario all wrapped into one. Playing on keyboard can be quite hard, but the game supports USBJoystick and that is what i recommend. certainly worth a try if you enjoy those kind of old school retro games.

Valorizem a Cultura Nacional!!! - Dia do Livro, do Saci e da Língua Portuguesa :-

Neste ano de 2018, a CleanWaterSoft decidiu iniciar uma campanha de valorização da cultura brasileira. Por isso, em datas históricas e datas que comemoram particularidades da nossa cultura nacional, um ou mais jogos da CleanWaterSoft entrarão em promoção.

Como já foi dito antes, **não participaremos** da Promoção de Halloween da Steam... Pois faremos algo muito especial durante esse período!

A partir do Dia 29 de outubro. **Price Drop:**

Hi everyone!

The price of this game dropped permanently from \$4,99 to \$2,99.

This is a game that was first released (outside of Steam) in 2013.
It was about time to drop this price.

Thanks for your ever support, my work is for you!

Kind regards,

Alysson L. Neto. **Steam Update Crash Fix #2:**

Hi everyone!

The crashes due to the last Steam Client updates were finally fixed. Many thanks for YoYo Games Staff for this.
Remember that you need to update it so these fixes can take effect.

If you downloaded the beta temporary workaround, you must opt-out of this or you will not be able to unlock any Steam Achievements with it.

To opt-out of the beta:

-
- Right click on the game in Library.
 - Go to Properties.
 - Click in the Beta tab and select the "NONE - Opt out of all beta programs".
 - Now just update and play it. Yay! XD

By the way, now that these crash issues were fixed, [Porradaria 2: Pagode of the Night](#) will be released with Steam Achievements as well. However, the release date will be a bit more delayed.

Also don't forget that [Porradaria 3: Final Dream](#) is awaiting for your "Yes, please" or "No, thanks" votes on Steam Greenlight.

Thanks for your ever support, my work is for you!

Kind regards,

Alysson L. Neto. **Porradaria Fan Pack is now Live!:**

Thanks for your ever support, my work is for you!

Best regards,

The Developer. **Reajuste de Precos:**

Olá a todos!

Adotei uma política de preços baixos em prol de manter o ideal de **jogos acessíveis ao brasileiro**, mas infelizmente, para poder manter a *CleanWaterSoft* no mercado atual, tive que reajustar o preço de alguns produtos.

Já faz algum tempo que o dólar está cada vez mais em alta em relação ao real, além da inflação que também está disparando cada vez mais, e a tendência é de ambos continuarem a subir. Mesmo assim, os jogos e *DLCs* da *CleanWaterSoft* não estavam

acompanhando a real situação econômica do nosso país.
